

Mobility, a professional opening

March 2021, Newsletter

The sanitary crisis has not discouraged our learners. They flew, then settled and took their mark in their company.

Currently in Malta for some or in Sweden for another, the students were asked to testify on their mobility. Some are already experiencing their 5th month of training. Here are some sentences written by the EMVOLPRO group :

"This experience is one of the most enriching, from a human and professional point of view. An experience that I recommend to people who like new adventures."

- Léo Guiochet Gesta

"My internship went super well, the employees immediately made me feel comfortable and I quickly learned the job of a receptionist that I knew nothing about before. I'm starting to be less reserved and having to speak in English has helped my pronunciation tremendously. In addition, my level has definitely improved."

- Sabrina Bellot

"I have been working in Malta for 3 months now at the Stradivarius store. I was quickly integrated, my colleagues are great, we are a real team."

- Méliana Ferreira Dealmeida

"I hope to gain as much experience and knowledge as possible in order to be accepted into a Bachelor's degree and become a Human Resources Manager."

- Alexis Bléneau

"I am always very pleased to go to work, I integrated the team very easily. I find motivation just realizing how unique this experience is."

- Stan Boudet

"If I had not left, I think I would have regretted this choice. I am proud of myself, leaving has made me grow, I am discovering many things. If I had to do it again, I would make that choice. "

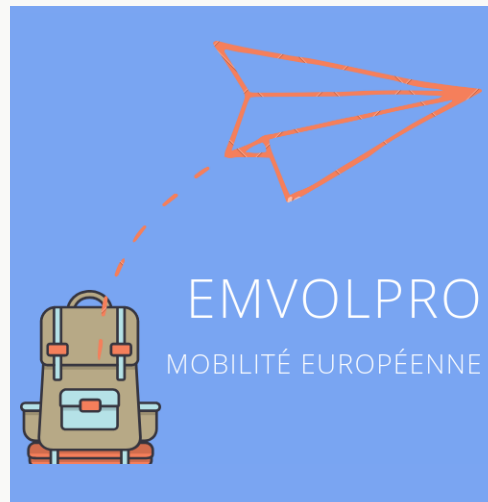

- Sohayb Boufarha

Manon, come back to France on February 9th since her company, a hotel for animals, closed due to Covid-19.

The Envolpro head of department, travels throughout the Poitiers academy. She has already visited the high schools that have asked her in, so if you are interested, do not hesitate to contact me.
